To,

All the Super Stockiest / Stockiest / Retailers,

You are aware that Ayurveda Rasashala Foundation is selling Ayurvedic Medicines under the HSN Number 30049011. While selling these medicines, the same were levied by GST under two rates, i.e. 12 % and 5% under the GST act.

As you are aware that Government of India, announced on 3rd September 2025 through the press release of a downward revision in GST rates on Medicines effective from 22nd September 2025. The GST rate of 5% remain unchanged but the medicines which were levied 12% GST, will be under 5% GST slab.

As the Government have taken this progressive initiative to rationalize GST rates applicable on medicines for the benefit of the common man, Government has made it compulsory that the benefit should be passed to common man by revision of MRP.

To fulfil this mandatory requirement, we are aware of the operational and functional implications it may have across the distribution network. Following are the considerations to be fulfilled.

- 1) All the invoices generated from 22nd September 2025 onwards must reflect the revised GST rates. We are following this condition and we request all the super stockiest, distributors and retailers to update their billing and accounting systems accordingly to generate the invoices with new MRP.
- 2) We request all our Super Stockiest to extend adequate support to stockiest and retailers during the transition so that there is no disruption for patients / consumers. We also advice retailers to ensure that the benefits of this reform are smoothly passed on to the end customers.
- 3) The revision of MRP due to the downward revision of GST rates will not impact the existing trade margin structure for the Super Stockiest, stockiest and retailers as they remain unchanged.
- 4) We request our Super Stockiest, stockiest and retailers to continue regular purchasing and inventory management.
- 5) We are attaching the price list of the medicines with downward revision of MRP.

We sincerely look forward to your continued cooperation in ensuing an uninterrupted supply of our quality medicines during this transition.

With thanks and regards

(Dr. V. V. Doiphode)
